

Name: L.S. HARRISH

Roll NO: 240701178

Bad Design:

1. Color Choices

- Maroon background with mustard yellow buttons creates poor contrast.
- Hard to read and visually tiring for users.

2. Typography

- Bold black text on maroon lacks clarity.
- Not accessible for users with vision difficulties.

3. Visual Hierarchy

- All buttons look identical.
- No distinction between primary and secondary actions, so users don't know what's most important.

4. Spacing & Alignment

- Buttons are stacked too tightly.
- No breathing room, making the interface feel cramped and unbalanced.

Good Design:

iPhone 16 Pro - 1

Vegetable

Fish

Meat

1.Simplicity

- A clean, uniform background avoids clutter.
- Users aren't distracted by unnecessary elements.

2. Focus

- The solid purple background creates a calm, consistent environment.
- It allows important content (like text or buttons you add later) to stand out clearly.

3. Consistency

- Both images use the same shade of purple, reinforcing brand identity and visual harmony.

4. Readability Support

- A plain background makes text and icons easier to read when placed on top.
- Unlike the maroon + mustard combo, purple provides a neutral canvas.

5. Modern Aesthetic

- Minimalist design is widely considered professional and user-friendly.
- It aligns with current design trends (flat design, clean UI).

Key Differences:

1. Complexity vs. Simplicity

- **Bad Design (1st picture):** Multiple colors, buttons, and unclear elements (like “.....”) make the interface busy and confusing.
- **Good Design (2nd & 3rd pictures):** Clean, solid background with no distractions. Simplicity helps users focus on the main content.

2. Readability

- **Bad Design:** Poor color contrast (maroon + mustard yellow + black text) reduces readability.
- **Good Design:** Plain purple background provides a neutral canvas, making any text or icons placed on top easy to read.

3. Visual Hierarchy

- **Bad Design:** All buttons look the same, so users can't tell which action is most important.
- **Good Design:** Minimalist background allows you to later add elements with clear hierarchy (e.g., bold headings, highlighted buttons).
