

USER INTERFACE DESIGN EXPT-7

HARRISH LS 240701178

The aim is to trial different app layouts and color schemes and evaluate user feedback on aesthetics and usability using GIMP.

PROCEDURE:

Step 1: Create Design in Figma

- Open Figma and create a new design file
- Set frame size to 1080 × 1920 pixels (mobile screen)

Step 2: Design Base Layout

- Create three different layouts:
 - o Minimal Layout (list-based)
 - o Grid Layout (box-based)
 - o Card Layout (modern UI)

Step 3: Apply Colour Schemes

- Layout 1: Light theme (white background)
- Layout 2: Soft color palette (pastel colors)
- Layout 3: Dark theme (black background with highlights)

Step 4: Add UI Elements

- Add features like:
 - o Workouts
 - o Nutrition Plans
 - o Progress Tracker
- Include icons and navigation bar for better usability

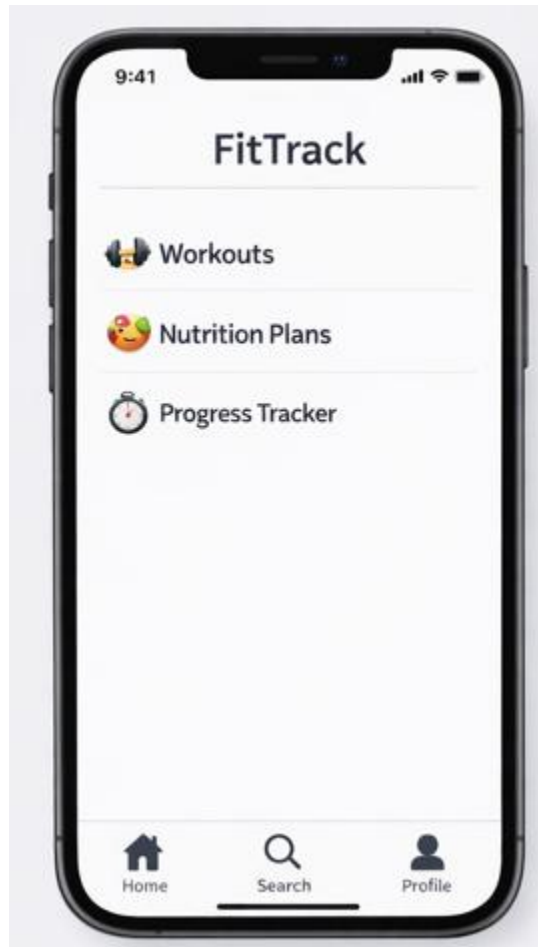

Step 5: Export Designs

- Export each layout as PNG:
 - o Layout1.png
 - o Layout2.png
 - o Layout3.png

Step 6: Collect User Feedback

- Show all three layouts to users
- Ask them to rate based on:

- o Visual appeal
- o Usability
- o Readability
- o Colour preference

User Feedback:

Layout 1:

- Simple layout with clean list-based structure
- Easy to understand and navigate
- Less attractive compared to other layouts
- Needs better color usage and styling

Layout 2:

- Well-organized grid layout with clear sections
- Visually better than minimal layout
- Easy to scan and access features
- Slightly crowded, spacing can be improved

Layout 3:

- Modern and visually appealing card-based layout
- Dark theme enhances overall look

- Cards improve user interaction and engagement
- Clean, professional, and well-balanced design

Preferred Layout: Layout 3

Why?

- Provides modern and attractive user interface
- Better user engagement through card design
- Clear navigation and readability
- Balanced color scheme with high visual appeal
